EDUCATION

- 2018-2021 • B.Tech(Electrical and electronics engineering)
Vasireddy Venkataadri institute of technology(VVIT),
guntur, 7.0 GPA

PROFESSIONAL EXPERIENCE

Sanvima Solutions

Role: Jr.Front-end developer (NOV 2023 - JAN2023)

Developed and maintained responsive web applications using React.js, HTML, CSS, and JavaScript. Worked on integrating RESTful APIs and handling data retrieval and manipulation. Collaborated with cross functional teams to gather project requirements and translate them into user friendly and visually appealing web interfaces.

Pathbreaker Technologies

Role: Software Engineer (SEP 2022 - OCT2023)

Lead the full stack development of dynamic web apps using PHP, React.js, and related frameworks for user satisfaction. Enhanced front-end using HTML, CSS, and JavaScript for better speed and responsiveness. Built robust RESTful APIs, optimizing data management with third party APIs.

Project Portfolio:

Project 1: PLUTO

Role: Full stack developer

Pioneered the creation of an automated HR document system encompassing payslip generation, offer letters, and hike notifications. Employed precise algorithms to calculate payslips accurately and facilitate smooth document distribution.

Project 2: PARINAAMAAH

Role: Full stack Developer

As a UI/UX Developer for the Parinamah project, I leverage skills in HTML, CSS, and JavaScript. My responsibilities include developing detailed wireframes and interactive prototypes to enhance user experience. Proficient in crafting visually appealing designs, I blend coding expertise with effective prototyping, contributing to the success of the Parinamah project.

- Built and managed 20+ websites, displaying web development expertise.
- Worked closely with clients and teams, delivering websites on time and exceeding expectations.

Declaration:

I hereby declare that the above information about me is true to best of my knowledge.
